A new diploma level course in scientific glass working has been started in the School of Instrumentation, DAVV, Indore, with the collaboration of CAT. The course was inaugurated by the Director, CAT on Nov.1 at a function presided over by Dr U S Chaudhari, Vice Chancellor of DAVV. Dr D D Bhawalkar and Shri S S Ramamurthi stressed the importance of such job oriented training courses, which will improve the infrastructure in high technology fields. A seminar on educational facilities in scientific glass working, was organised by the Indian Society of Scientific Glassblowers (Central India Chapter) on that day, with a talk delivered by Dr L M Rangarajan.
